

Answer the questions on a separate piece of paper after exploring the Spectrogram feature of Chrome Music Lab:

1. What is a Spectrogram? (Hint: You can find the answer in the directions and in the top right corner of the Spectrogram feature!)
2. Write 1 sentence describing how the frequencies of the Harp looked like.
3. Write 1 sentence describing how the frequencies of the Trombone looked like.
4. Write 1 sentence describing how the frequencies of the Birds looked like.
5. 1 sentence describing how the frequencies of the Modem looked like.
6. Pick 1 of the other options. Which one did you pick and describe what the frequencies looked like.
7. Were you able to use your microphone and see what the spectrogram of your voice sounded like? If so describe what it looked like.
